

RELEASE NOTES

Reduce Time On Select a Pharmacy Page

What is it?

The Select a Pharmacy page is intended to collect a patient's preferred pharmacy. It provides information that is required in order for a provider to prescribe medication via ePrescribe. Design improvements have been added to make the patient's experience on this page fast and easy.

What has changed?

The following items will be updated/added to the pharmacy page (see [How does it work](#) below):

- Mobile Only:
 - A [UPDATE] Display map and list in a split view.
 - [UPDATE] Removed the map and list icons to the right of the address or zip code input field.
 - [NEW] Added a new filter icon to the right of the address input field. [NEW] Placed Retail, Mail Order (checkboxes), and "Pharmacy name" input field. behind a filter icon that is placed next to the address or zip code field.
 - [NEW] New styling for skip pharmacy next to the "Continue" button when you have one selected.
- Web Only:
 - A [NEW] Added a new grayed out **Select a pharmacy** button that changes to **Continue** once a pharmacy is selected.
 - [UPDATE] Moved the placement of the continue and back button.
 - [UPDATE] Moved the location of the "Retail" and "Mail Order" checkbox.
 - [UPDATE] Moved the location of the "Pharmacy name (optional)" input field.

Why is it useful?

These improvements will enhance the experience a patient has when interacting with the Select a Pharmacy page making it easier to navigate the page, removing uncertainty in the Pharmacy selection, and ultimately reducing the time a patient spends on the page.

When should I use it?

For Visit Types where ePrescribe is enabled, the Select a Pharmacy page is used by a patient in the eVisit app to provide their preferred pharmacy to their provider so medications can be picked up by the patient at that location.
