EVISIT PRODUCT RELEASE, JUNE 2023

What is it?

Updates to the login page that will allow users to have more options when needing support, giving users a faster, more efficient, and more convenient way to get past technical issues.

How does it work?

Instead of only displaying eVisit's support phone number on the login page, patients and clinical users will now have three choices for technical assistance. These include: 1) eVisit's support phone number, b) submitting a ticket to eVisit's support, and 3) viewing the knowledge base which may allow users to solve the issue on their own.

How do I get started?

This feature will be available to all customers automatically.
